

SAFE RETURN

Do you have a family member on the Autism Spectrum that is at risk of wondering off and going missing?

Autism Northern Territory has partnered with NT Police to bring you the Safe Return program for all ages with Autism Spectrum Disorder.

This program is specially designed to help ensure the safe and quick return of your family member on the Autism Spectrum.

How does Safe Return work?

When a loved one is registered with Safe Return, they are provided with a PROMIS ID on an engraved bracelet with the PROMIS ID number and Police hotline phone number.

The PROMIS ID number is linked to the NT Police database, available 24/7.

If your registered, loved one has gone missing you can call the hotline with the PROMIS ID number, the NT Police will have a photo and all the details about the missing person. This will assist the NT Police to identify the person, and quickly and safely assess how to approach your loved one and return them to your safety.

To Register Contact:

Office phone: **8948 4424**

Email: **autismnt@autismnt.org.au**

Safe Return Program is a joint project.
